Hello,

The US EPA has prepared the following information resource:

EPA is committed to working closely with response agencies and state and local officials to ensure the safety of citizens, respond to concerns and to evaluate impact to water contaminated by the Gold King Mine Release. EPA is sharing information as quickly as possible with the public as experts work to evaluate any effects the spill may have on drinking water, public health, agriculture, fish and wildlife. Please see our website for the latest information: <http://www2.epa.gov/goldkingmine>
Regular updates will be posted as they are available.
EPA Hotline: 844-607-9700 (toll-free)

Comments: I am participating in an 18 day private rafting trip of the grand canyon, departing from Lee's Ferry, AZ on August 24th and ending in Lake Mead. Should there be any problems drinking filtered, boiled water from the Colorado river for an extended period of time? Or any other issues resulting from the Gold King mine leakage into the river. Thank you.
